### **New Sporlan CSG Catch-All® Filter-Drier Models Increase System Servicing up to 13 Tons**

CHICAGO, IL - January 23, 2012 - Parker Hannifin Corporation, the global leader in motion and control technologies, introduced three new models to the Sporlan CSG Catch-All product line at the 2012 AHR Expo. The CSG-084-S, CSG-164-S, CSG-165-S models were added to allow these revolutionary system protection products to service refrigerating systems up to 13 tons.

The Sporlan CSG Catch-All family of products offers simple and fast installation. CSG provides the outstanding protection of the Catch-All filter-drier along with the easy-to-read moisture-sensing ability of the See-All™ liquid and moisture indicator in one component. Combining these products into one easy-to-install unit reduces installation time, materials and effort while ensuring the outstanding protection of the system. The new models complement the CSG-083-S and CSG-163-S released in 2011.

The entire CSG filter-drier family is now available at your local Sporlan Authorized wholesaler. For more information contact Parker Hannifin – Sporlan Division, 206 Lange Drive, Washington, MO 63090, Phone 636-239-1111 or visit [www.sporlan.com](http://www.sporlan.com).

Visit Parker Sporlan at the 2012 AHR Expo at booth #5135 to learn more about the revolutionary CSG Catch-All Filter-Drier models.

With annual sales of \$12 billion in fiscal year 2011, Parker Hannifin is the world's leading diversified manufacturer of motion and control technologies and systems, providing precision-engineered solutions for a wide variety of mobile, industrial and aerospace markets. The company employs approximately 55,000 people in 46 countries around the world. Parker has increased its annual dividends paid to shareholders for 54 consecutive years, among the top five longest-running dividend-increase records in the S&P 500 index. For more information, visit the company's web site at <http://www.parker.com>, or its investor information site at <http://www.phstock.com>.
